

## **Climate Change Landscape & Project Management**

Climate Change Landscape and Project Management are experts in providing high quality professional workmanship. We offer Climate Change Renovations and effective solutions for establishing all of your landscaping and paving needs, from unique design to something simple and easy. Delivered on budget and on time.

Is your property a bush fire hazard? A service you may not have considered is Fire Scape and Protection for your home. We can show you how to best prepare and protect your family and home.

Prepare for summer by booking any of our services between August and November inclusive to receive 15% off the total quote. This is only available for Coromandel Ramblers affiliates.

To see what Climate Change Landscape and Project Management can do in the garden, then please visit the club's website and look at how Glen Rosie's garden has come from nothing into something spectacular. Not only is this an option, but we can tailor a solution to meet your needs and budget whilst producing top quality results.

For further information regarding this opportunity, please contact Brett Lawson on 0433 777 465 or at [climatechangelandscape@bigpond.com](mailto:climatechangelandscape@bigpond.com). Please remember to mention that you are involved with the Coromandel Ramblers in order to receive your discount.
